

Kopotakkho River erosion

Gabura Union of saymnagar Upazila Under Satkhira district

River erosion is one of the highly disaster in this world because it's marked a man landless, Houseless, workless, forestless and personality less. In this time south- west costrel belt area of Bangladesh Gabura **union** under shatkhirra district 90% people straggle with River erosion because they were living more than 100 years ago but they not phase present condition. It's started mainly dated 04-09-2008 and they prepared a ring road for safety from river erosion with own capability dated on 06-09-2008. After prepared a ring road they filled save from river erosion but highly Jour on dated 16-09-2008 almost area of gabura union are affected with river erosion. Same days more than 4000 family are direct affected from river erosion. When river erosion stared most of the family crudely for house, land, livestock, agriculture, shrimp culture because its going to river within in 6 hours. They are passing day with cyclone shelter without Primary equipment of cook, food, medicine and cloth. The shelter of this area not enough for present session. As per need **Shushilan** take some initiative for affected people like Shushilan staff helping for shelter and safe water. **Shushilan** staff also arranges journalist and media for emergency help them. So they are passing with difficulty still to reporting time. Minimum 5 to 7 days continue peasant situation.
