

DER POST-FLOOD NEEDS ASSESSMENT DISTRICT SUMMARY FORMAT

ONE FORM TO BE COMPLETED FOR EACH DISTRICT

OBJECTIVES OF THE ASSESSMENT:

- * To **identify the short, medium and longer term NEEDS of the poor** that were specifically caused by these floods, rather than on the damage or losses.
- * To **obtain detailed information on the NEEDS in each sector**, that enables agencies to plan, budget, and implement their relief and rehabilitation programmes.
- * To **report accurate, independently verified information** to give a clear picture of new NEEDS created by these floods, on top of the pre-existing chronic needs of the poor.

District Name:	Dhaka
----------------	-------

District's Main City:	Dhaka
-----------------------	-------

1. LOCATION of the disaster:

# of Fully Affected Unions of all Upazilas in this District:	# of Partially Affected Unions of all Upazilas in this District:	# of Unaffected Unions of all Upazilas in this District:
Total: 48	Total: 34	Total: 1

2. Information on the FLOOD (Please summarize or give averages on the basis of your upazila records/observations):

a) How high was the water level in this district (based on upazila observations) during the Flood - 2004?	
High: <u>7.6'</u>	Medium: <u>7.0'</u> Low: <u>6.6'</u>
b) When did the water level rise above a 'normal' flood level ?	14.07.04
c) When did the water level fall below a 'normal' flood level ?	05.08.04
d) Did the floodwater level fall at any stage during this period - if so between which dates?	Not fallen
e) When was the last time that the floodwater level was as high as this time?	1988
f) When was the last time that the flood lasted as long as this time?	1998

3. Information on the Population (1) provide the quantitative data gathered from the various district sources in their appropriate fields here, 2) summarize the qualitative data from your upazila records/observations in the appropriate fields):

(a) What is the total population of the district ?		
(b) How many people in the district are affected in total ?	3,664,337	
(c) How many families in the district are affected in total ?	684,912	
(d) How many births have been there during the flood period in this district?		
(e) Where did these births take place ?		
(f) Was a trained attendant present at the deliveries ?		
(g) How many people have died due to drowning and flood-related diseases and related causes (disaggregated by age and sex) in the district ?	Adult male: 5	Adult female: 7
	Boys: 15	Girls: 8
	Infants: 1	Infants: 1
(h) How many people have been injured or fallen sick due to the flooding (disaggregated by age and sex) in the district ?	Adult male:	Adult female:
	Boys:	Girls:
	Infants:	Infants:
(i) How many families in this district had to evacuate their homes and take refuge in other places	512,158	
(j) Where did these families take refuge ?	401 Shelter	
(k) Describe the additional vulnerabilities of the population caused by the floods:		
i. No access to safe drinking water	5-7% Information by DPHE and FGD	
ii. No access to sanitation facilities	35% Information by CS office	
iii. No access to healthcare	10% Information by CS office	
iv. No access to family planning services	12% Information by CS office	
v. No access to skilled attendants at birth	3% Information by CS office	
vi. No ability to cook	123 Information by DRRO office	

vii. No power supply	2% Information by LGED
viii. No transportation	Road communication were fully blocked in two upzila(caranigonj & Nawabgonj) alternative transportation were running
ix. Erosion of housing	50 Houses
x. Robbery of possessions	No record findings
xi. Loss of income	30% Information by DRRO office
xii. Lack of wage-employment opportunities	13.37 % Information by DRRO office
xiii. Lack of seed/seedlings	No seeds were available and lack of 75% seedlings
xiv. Food insecurity	sufficient food
xv. Long-term unemployment	No
xvi. Others (please specify)	Fish culture programme badly damage

4. HEALTH & NUTRITION (1) provide the quantitative data gathered from the various district sources in their appropriate fields here, 2) summarize the qualitative data from your upazila records/observations in the appropriate fields):

(a) What are the diseases normally experienced at this time of year ?	fiver, water diseases
(b) Have any diseases increased because of the floods ? If yes, which diseases ?	fiver, diarroea, skin diseases
(c) Are there any possibilities of further serious disease outbreaks ?	No, because govt. has taken sufficient measures
(d) Are there a significant number of sick/ill persons at this time ?	No findings
(e) Are the sick persons able to receive the necessary treatment ?	Yes, they able

(f) Has the flood caused any damage to the government's medical facilities in this district ?		Yes, 28 medical facilities					
(g) Has the flood caused any routine health/nutrition services (e.g. immunization, antenatal care, provision of iron-folate/vitamin A supplements) in the area to reduce or stop and, if so, why ?		No routine health services reduced but, some immunization center stop for few days due to flood water.					
(h) If the sick/ill people are not able to receive necessary treatment, what kind of assistance is required in this district ?		Sick people can able to receive necessary treatment.					
(i) Are there any facilities in place to monitor and/or treat severe malnutrition ?		Yes, they have.					
(j) Are there any signs (e.g. swollen belly, wasting, night blindness, etc.) of severe malnutrition in the following:	<i>Children under 5 years:</i>		<i>Pregnant & lactating women:</i>		<i>The general population of the area:</i>		
(k) Has there been any change in the number of malnourished since the flood and, if so, how much has it increased ?							
(l) Were there any deaths of severely malnourished children in the district:	<i>Prior to the floods:</i>		<i>During the floods:</i>		<i>Following the floods:</i>		
	Not found		not found		not found		
(m) Are there any specialised feeding needs in the district ?	<i>Clinics & community health centres (If yes, #)</i>	<i>Hospitals (If yes, #)</i>	<i>Intensive care units (If yes, #)</i>	<i>Schools (If yes, #)</i>	<i>Children's homes (If yes, #)</i>	<i>Others (If yes, #)</i>	
(n) What types and amounts of health & nutrition-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:	ORS	WPT	WPL	Colera ORS	Bleching powder	
	Units:	171,425	219,900	1,086	7,733	6,565	
	Amounts:	514,275					
	Items:						
	Amounts:						
(o) Are there sufficient quantities of the following		<i>ORS</i>	<i>WPTs</i>	<i>IVS fluids</i>	<i>WPL, C.Saline, Ble.pow</i>		

basic medicines ?	68,575	179,900		46pkt 467 pkt 139 kg
(p) If not, how much of these medicines is needed ?	1,000,000			1800 1800 25 drum
(q) In the district, what shortages related to health and nutrition are there and hence what are the IMMEDIATE MEDICAL & NUTRITION NEEDS of the population due to the floods:				
<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>	
ORS	1,000,000	3	3,000,000	
WPL	1800 Ltr		-	
Colera Saline	1800 bag		-	
Bleaching Powder	25 drum		-	
(r) In the district, what are the medium-term ONGOING HEALTH & NUTRITION SECTOR NEEDS due to the floods:				
NA			0	
(s) In the district, what are the longer-term HEALTH & NUTRITION SECTOR REHABILITATION NEEDS due to the floods:				
NA			0	
(t) Any other remarks:				
None				

5. WATER & SANITATION (1) provide the quantitative data gathered from the various district sources in their appropriate fields here, 2) summarize the qualitative data from your upazila records/observations in the appropriate fields):

Type of drinking water sources (in the district):	<i>Piped water systems:</i>	<i>Tube-wells:</i>	<i>Dug & other wells:</i>	<i>Surface & rain water systems:</i>	<i>Others:</i>
(a) How many of these water sources are normally available in the district?		DPHE 22,550			
(b) How many of these sources have been damaged/contaminated in the district ?		8,259			
(c) What damage/contamination has been sustained by these sources ?		Arsenic contamination			
(d) How many of the damaged/contaminated water sources have been repaired and put back in use?		6,109			
(e) How many of these water sources are available right now ?		16,354			

(f) How many of the water sources still need to be repaired in the area ?		2,150				
(g) How many of the water sources still need to be replaced / reinstalled in the area ?		913				
(h) Is there adequate water supply in terms of quantity and quality ?	No					
(i) What sanitation arrangements are normally available in the area ?	Hygienic sanitation are not available everywhere.					
(j) How many of these have been damaged and are now unusable ?	No Statistics					
(k) How many latrines/sanitation arrangements have already been repaired ?	No Statistics					
(l) How many latrines/sanitation arrangements still need to be repaired ?	No Statistics					
(m) How many latrines/sanitation arrangements need to be completely replaced/installed anew ?	No Statistics					
(n) What are the alternative sanitation arrangements in the places without functioning latrines right now	By using open field					
(o) Do women and girls have access to secure sanitation arrangements ?	1,42,716 womens are using hygienic latrines					
(p) What types and amounts of water & sanitation-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:	WPT	WPL	Water Jericane		
	Units:	219,900	1,086			
	Amounts:					
	Items:					
	Units:					
Amounts:						
(q) In the district, what are the IMMEDIATE WAT/SAN NEEDS of the population caused by the floods:						
<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>			
NA				0		
(r) In the district, what are the medium-term ONGOING WAT/SAN SECTOR NEEDS due to the floods:						
NA				0		
(s) In the district, what are the longer-term WAT/SAN REHABILITATION NEEDS due to the floods:						
NA				0		

(t) Any other remarks:
 1.Sanitation need assesment not completed. But govt. has extensive program about sanitation under development prog. Govt. aim they will provide sanitation facilities for all within 2010.

6. AGRICULTURE (1) provide the quantitative data gathered from the various district sources in their appropriate fields here, 2) summarize the qualitative data from your upazila records/observations in the appropriate fields):

(a) What are the main crops in the affected district ?	Paddy	Jute	Vegetable	Others
(b) What acreage of these crops is lost in the district ?	36,724	11,038	11,539	8,540
(c) What proportion of the total acreage of these crops does this represent ?	10%	32%	20%	30%
(d) What acreage of seedbeds is lost in the district ?	1,030			
(e) What proportion of the total acreage of these seedbeds does this represent ?	85%	0%	0%	0%
(f) When is the next planting season for these crops in the district (mm/yyyy) ?	Mar/Apr'05	Oct/Sep'04	Oct/Sep'04	Sep/Oct'04
(g) When will these crops normally be ready for harvesting (mm/yyyy) ?	Nov'05	Feb/mar'05	Feb/Mar'05	Nov/Dec'04
(h) Are seeds for these crops available in the district at an affordable price ?	Yes	Yes	Yes	Yes
(i) Do families in the district currently have seeds for these crops, or money to purchase them ?	Some have	some not	have	
(j) If no – what varieties of seeds do families require ?	Onion	Paddy/ wheat	Pulse	vegetable
(k) In what quantities does a family in the district need the seeds per bigha land per crop ?	1/2 kg	5 kg	1 kg	1/2 kg
(l) What other agricultural needs are there – irrigation, fertilizer, labour etc. and how are the farmers in the district planning to obtain them ?	Farmers are waiting for govt. or others help.			
(m) In the district, what types of livestock are lost ?	Cow	Duck/hen	Sheep/Goat	Others
(n) In the district, what numbers of this stock are lost ?	135	32,925	122	
(o) How many more have been sold in the district ?				
(p) What proportion of the total number of this of livestock does this represent in the district ?	99%	98%	99%	0%
(q) In the district, is adequate fodder available for the remaining				

(r) Will a re-stocking of healthy animals from another region be possible ?							
(s) If so, when should the re-stocking be planned for (mm/yyyy) ?							
(t) What is the supply situation for livestock vaccines and medicines in the district ?							
(u) How will affected in the district families survive until the next harvest ?				They are getting ration by VGF card from govt.			
(v) In the district, what types and amounts of agriculture-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc ?	Items:	Boro Aman	Boro	Mas kali	vegetable	Ropa	Wheat
	Units:	2,500	2,900	800 acre	150 acre	50 acre	4,000
	Amounts:	4,143,750	50,736,250	70,500	2,341,125	3,149,250	845,400
	Items:	Mustard					
	Units:	2000ac					
	Amounts:	21,922					
(w) In the district, what are the IMMEDIATE AGRICULTURE NEEDS of the population caused by the floods:							
<u>Item</u>		<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>	
Ropa		335				0	
(x) In the district, what are the medium-term ONGOING AGRICULTURE SECTOR NEEDS due to the floods:							
NA						0	
(y) In the district, what are the longer-term AGRICULTURE REHABILITATION NEEDS due to the floods:							
NA						0	
(z) Any other remarks:							
None							

7. FOOD (1) provide the quantitative data gathered from the various district sources in their appropriate fields here, 2) summarize the qualitative data from your upazila records/observations in the appropriate fields):

(a) What are the preferred staple foods in the district?	Rice, Pulse, Potato				
(b) What stocks are normally available in the Local Storage Depots (LSD) in this district ? (Specify item and amount)	Item:	Item:	Item:	Item:	Item:
	Rice	Wheat			
	37987 MT	1907 MT			

(c) What stocks are held there right now ? (If possible to summarize; otherwise provide approximate numbers)	Rice	Wheat					
(d) In this district, how many people benefitted from Public Food Distributions in the period before the flood ?	Gratuitous Relief:	VGF:	VGD:	Rural Maint. Programme:	NGOs:		
	907,600		237,000		75 MT		
(e) In the district, how many are benefitting from such targetted food distributions now ?							
(f) Have vulnerable families/groups in this district access to adequate amounts of food right now ?							
(g) In this district, is there any change in commodity prices after the floods ?	Yes						
(h) What is the district-wise average price of coarse rice now (in Sep) ?	Tk.16.00						
(i) What was the district-wise average price of coarse rice in June ?	Tk.14.00						
(j) In the district, what amount of food do affected families have available per week ?	Rice (in Kg.)	Pulse (in Kg.)	Oil (in Kg.)	Salt (in Kg.)	HEB (in Packets)		
	5	1	1	250 gm	7		
(k) From which sources are most people buying/getting their food ? e.g. Neighbours, friends, relatives, store purchase, borrowed money/food, Govt GR,VGF, VGD, RMP, NGOs, others	Most people were buying/getting their food from relatives,VGD, NGOs, borrowed food/money.						
(l) Do most families have any food stocks in their homes right now ? If yes, how long will they last ?	No stock						
(m) In the district, are people able to cook in the affected areas ?	few people were not able to cook.						
(n) Of the affected families in the district, how many are in need of food and for how long will they need assistance ?	Number of Families:				Period (Days):		
	163,200				90		
(p) In the district, what types and amounts of food-related relief assistance has already	Items:	Rice Kg/family	Potatos Kg/family	Oil Kg/family	Pulse Kg/family	Salt Kg/family	Fried Rice Kg/family
	Units:	15	3	1	2	1	3
	Amounts:	240	27	55	84	12	15

been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:	Molases	HEB				
	Units:	1/2 kg	7 pkt				
	Amounts:	15	Importat				
(q) In the district, what are the IMMEDIATE FOOD RELIEF NEEDS of the population due to the floods:							
<u>Item</u>		<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>	
NA						0	
(r) In the district, what are the medium-term ONGOING FOOD RELIEF NEEDS due to the floods:							
VGF Card						0	
(s) In the district, what are the longer-term FOOD REHABILITATION NEEDS due to the floods:							
VGD Card						0	
(t) Any other remarks:							
None							

8. SHELTER (1) provide the quantitative data gathered from the various district sources in their appropriate fields here, 2) summarize the qualitative data from your upazila records/observations in the appropriate fields):

(a) How many houses were completely destroyed by the flood in the district ?	90,710
(b) How many houses were badly damaged by the floods in the district ?	80,670
(c) How many houses were lightly damaged by the floods in the district ?	205,158
(d) In the district, how many families lost their houses due to river erosion ?	50
(e) In the district, how many of the affected families who were displaced are still living in their area ?	No record
(f) How many houses need to be rebuilt in the district?	80,670
(g) How many houses need to be repaired in the district ?	205,158
(h) How many of the completely destroyed houses in this district belonged to female-headed households ?	No record

(i) How many of the partially destroyed houses in this district belonged to female-headed households ?	No record				
(j) Describe the typical house design in this district:	Hut, Square and Duo chala tinshaded house				
(k) What are the usual house building materials used in this district ?	Brick, fences, Bamboo or RCC pillar, wood, tin,				
(l) Are these materials readily available in the district's markets ?	Yes				
(m) What is the cost of these building materials ?	<i>Item:</i> <i>Fence</i>	<i>Item:</i> <i>Bamboo</i>	<i>Item:</i> <i>Wood</i>	<i>Item:</i> <i>Tin</i>	<i>Item:</i> <i>RCC Pilar</i>
	Tk. 80 yrds	Tk. 250	Tk.900 sqft	Tk.3200ban	Tk.600pcs
(n) What would be the cost of building a minimum standard rural house for this district ?	10000-12000BDT				
(o) What kind of support do the people in this district need for house repair ?	Fence, bamboo, wood, pilar or money				
(p) Describe effective practices for flood mitigation in this district :	Pre flood information,adequate food reserve, ORS, WPT, emergency medicine reserve, water transportation				
(p) What types and amounts of shelter-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:				
	Units:				
	Amounts:				
	Items:	TB	LT		
	Units:	2	28		
	Amounts:				
(r) In the district, what are the IMMEDIATE SHELTER NEEDS of the population:					
<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>		
RCC pilar	645,360	600	387,216,000		
Fence	1,720,960	80	137,676,800		
Tin			0		
Wood			0		
(s) In the district, what are the medium-term ONGOING SHELTER NEEDS:					
NA			0		
(t) In the district, what are the longer-term SHELTER REHABILITATION NEEDS:					

NA				0
(u) Any other remarks:				
None				

9. EDUCATION (1) provide the quantitative data gathered from the various district sources in their appropriate fields here, 2) summarize the qualitative data from your upazila records/observations in the appropriate fields):

Type of school (please provide district totals):	<i>Govt primary</i>	<i>Registered non-Govt primary</i>	<i>Community schools</i>	<i>Unregistered primary</i>	<i>NGO schools</i>	<i>Madrassahs</i>	<i>Secondary schools</i>
(a) How many were there before the floods ?							
(b) How many were used as flood shelters ?						10	76
(c) How many are still in use as flood shelters ?							
(d) How many need to be completely rebuilt?							
(e) How many need extensive repairs?						3	6
(f) How many need light repairing?						7	70
(g) How many are not currently in a state to conduct classes ?							
(h) How many is the government planning to repair?						10	76
(i) What types and amounts of education-related relief assistance has already been and is being provided by the various actors, such as GoB, INGOs, NGOs, etc.	Items:						
	Units:						
	Amounts:						
	Items:						
	Units:						

?	Amounts:					
(j) In the district, what are the IMMEDIATE NEEDS to restart classes in every school and learning centre:						
<u>Type of school:</u>	<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>		
NA				0		
(k) In the district, what NON-INFRASTRUCTURE EDUCATION NEEDS (chalk-boards, teaching materials, a globe, maps, charts, supplementary reading materials, games, sports items and, for the children - exercise/copy books, pens, pencils, school bags, etc.) are there, to make up for damage/losses:						
NA				0		
(l) In the district, what are the INFRASTRUCTURE NEEDS to repair one typical lightly damaged school :						
NA				0		
(m) In the district, what are the INFRASTRUCTURE NEEDS to repair one typical badly damaged school :						
NA				0		
(n) Any other remarks:						
None						

10. ECONOMIC RECOVERY & INFRASTRUCTURE (1) provide the quantitative data gathered from the various district sources in their appropriate fields here, 2) summarize the qualitative data from your upazila records/observations in the appropriate fields):

(a) What is the normal pre-monsoon season livelihood of most people in this district ?	Service
(b) What is the normal monsoon season livelihood of most people in this district ?	Service
(c) What are the main wage-employment activities (e.g. farming, cottage industries, shops) in this district ?	farming and shops
(d) Do most households in this district have any savings ?	No, Only few
(e) Have households in this district withdrawn their savings ?	Yes, they do
(f) Have households in this district sold or are planning to sell livestock or other assets ?	Yes, some people planed
(g) How is the job market for wage labourers in this district: satisfactory / not so good / very bad ?	Satisfactory
(h) In this district, what is the average daily wage for day-labourers ?	100 BDT

(i) Have households in this district sold their labour in advance ?	Very few						
(j) Have household members from this district had to migrate elsewhere in search of work ?	No						
(k) What other short-term coping mechanisms do households in this district have ?							
(l) In this district, have households taken new loans from micro-credit institutions – how much ?	If yes, #:		If yes, in what range?				
(m) In this district, have households taken new loans from village moneylenders – how much ?	If yes, #:		If yes, in what range?				
(n) What is the most crucial infrastructure in the district that makes the biggest difference to poor people's lives ?							
(o) Is this most crucial infrastructure damaged ?							
(p) What types of works are recommended by the people in this district for Cash-for-Work programmes ?							
(q) How many of these opportunities are there in this district ?							
(r) What measures could be taken in this district to increase resilience to future floods of local households and their livelihood practices ?							
(s) What types and amounts of economic recovery & infrastructure-related relief assistance has already been and is being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:						
	Units:						
	Amounts:						
	Items:						
	Units:						
	Amounts:						
(t) In this district, what type of SHORT-TERM ECONOMIC RECOVERY SUPPORT do local people consider							
<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>				
NA				0			

(u) In this district, what type of LONGER-TERM RECOVERY SUPPORT do local people consider necessary:			
NA			0
(v) Any other remarks:			
None			

11. Are there any other general observations that are important to note?
1. Fishery firm and fish culture are badly damage. They need choon for rectify the water and liquid medicine to prepre the pond for fish culture and money for purchasing young fish.
2. Dohar, Nawabgonj and keranigonj upazila's Tube wells water is near about 80% contaminated by Arsenic. To mitigate the arsenic problem there need to install more deep tube wells.

12. Logistic Considerations:

(a) Are there usable warehouses in or near the affected upazilas of this district?						
(b) Who do these warehouses belong to and can they be used to store relief items ?	<i>Govt LSD:</i>		<i>NGO:</i>		<i>Private / others:</i>	
	Available (If yes, #):		Available (If yes, #):		Available (If yes, #):	
	Combined Capacity (MT):		Combined Capacity (MT):		Combined Capacity (MT):	

13. Assessment Conducted By:

Name	Agency name	Agency phone no.	Personal phone no.	E-mail address	Signature

Signature of Assessment Team Leader: _____

Name: _____

Date: _____

DER POST-FLOOD NEEDS ASSESSMENT UPAZILA REPORT FORMAT
ONE FORM TO BE COMPLETED FOR EACH UPAZILA

District Name:	Dhaka	Upazila Name:	Dohar
District's Main City:	Dhaka	Upazila's Main Town:	Dohar

1. LOCATION of the disaster:

Fully Affected Unions		Partially Affected Unions		Unaffected Unions	
(a) Nawyabari		(j) Kusumpur		(s)	
(b) Sutarpara		(k) Raipara		(t)	
(c) Narisha		(l) Jaipara pourasaba		(u)	
(d) Muksudpur		(m)		(v)	
(e) Mahamudpur		(n)		(w)	
(f) Bealaishpur		(o)		(x)	
(g) Dohar		(p)		(y)	
(h)		(q)		(z)	
(i)		(r)		(aa)	
Total:	7	Total:	3	Total:	

2. Information on the FLOOD:

a) How high was the water level in this upazila during the Flood - 2004?		
High: 7.00 ft _____	Medium: 6.5 ft _____	Low: 6.02 ft _____
b) When did the water level rise above a 'normal' flood level ?	24.07.04	
c) When did the water level fall below a 'normal' flood level ?	09.08.04	
d) Did the floodwater level fall at any stage during this period - if so between which dates?	Not fallen	
e) When was the last time that the floodwater level was as high as this time?	1988 flood	
f) When was the last time that the flood lasted as long as this time?	1998 flood	

3. Information on the Population:

(a) What is the total population of the upazilla ?	191,280			
(b) How many people in total are affected ?	105,000			
(c) How many families in total are affected ?	18,500			
(d) How many births have been there during the flood period ?	No record			
(e) Where did these births take place ?	N/A			
(f) Was a trained attendant present at the deliveries ?	N/A			
(g) How many people have died due to drowning and flood-related diseases and related causes (disaggregated by age and sex) ?	Adult male:	1	Adult female:	1
	Boys:	1	Girls:	2
	Infants:		Infants:	
(h) How many people have been injured or fallen sick due to the flooding (disaggregated by age and sex) ?	Adult male:		Adult female:	
	Boys:		Girls:	
	Infants:		Infants:	

(i) How many families had to evacuate their homes and take refuge in other places ?	
(j) Where did these families take refuge ?	
(k) Describe the additional vulnerabilities of the population caused by the floods:	
i. No access to safe drinking water	3% Information by DPHE and FGD
ii. No access to sanitation facilities	45% Information by CS office
iii. No access to healthcare	20% Information by CS office
iv. No access to family planning services	1% Information by CS office
v. No access to skilled attendants at birth	2% Information by CS office
vi. No ability to cook	10% Information by DRRO office and FGD
vii. No power supply	7% Information by LGD
viii. No transportation	Some where and some where not
ix. Erosion of housing	7 Information by UNO office
x. Robbery of possessions	No robbery
xi. Loss of income	40% Information by DRRO office
xii. Lack of wage-employment opportunities	35% Information by DRRO office
xiii. Lack of seed/seedlings	27 hector Information by Agriculture office
xiv. Food insecurity	Sufficient food
xv. Long-term unemployment	5% Information by DRRO office
xvi. Others (please specify)	most of road and bridge are damage

4. HEALTH & NUTRITION

(a) What are the diseases normally experienced at this time of year ?	fiver, diarrhoea, water disease
(b) Have any diseases increased because of the floods ? If yes, which diseases ?	fiver, diarrhoea, water and skin disease
(c) Are there any possibilities of further serious disease outbreaks ?	No possibilities
(d) Are there a significant number of sick/ill persons at this time ?	No findings

(e) Are the sick persons able to receive the necessary treatment ?		Yes, they able					
(f) Has the flood caused any damage to the government's medical facilities in this area ?		Only one immunization clinic					
(g) Has the flood caused any routine health/nutrition services (e.g. immunization, antenatal care, provision of iron-folate/vitamin A supplements) in the area to reduce or stop and, if so, why ?		2 days were stopped routine health service in one immunization clinic.					
(h) If the sick/ill people are not able to receive necessary treatment, what kind of assistance is required in this area ?		Sick people can received necessary treatment.					
(i) Are there any facilities in place to monitor and/or treat severe malnutrition ?		Yes, they have					
(j) Are there any signs (e.g. swollen belly, wasting, night blindness, etc.) of severe malnutrition in the following:	<i>Children under 5 years:</i>		<i>Pregnant & lactating women:</i>		<i>The general population of the area:</i>		
	<i>Not found</i>		<i>not found</i>		<i>not found</i>		
(k) Has there been any change in the number of malnourished since the flood and, if so, how much has it increased ?							
(l) Were there any deaths of severely malnourished children in the area:	<i>Prior to the floods:</i>		<i>During the floods:</i>		<i>Following the floods:</i>		
(m) Are there any specialised feeding needs in the area ?	<i>Clinics & community health centres (If yes, #)</i>		<i>Hospitals (If yes, #)</i>	<i>Intensive care units (If yes, #)</i>	<i>Schools (If yes, #)</i>	<i>Children's homes (If yes, #)</i>	<i>Others (If yes, #)</i>
(n) What types and amounts of health & nutrition-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:	ORS	WPT	WPL	Medicine for fiver		
	Units:	20,000					
	Amounts:						
	Items:						
	Units:						
	Amounts:						
(o) Are there sufficient quantities of the following basic medicines ?		<i>ORS</i>	<i>WPTs</i>	<i>IVS fluids</i>	<i>Others ?</i>		
		<i>sufficient</i>	<i>sufficient</i>	<i>sufficient</i>			
(p) If not, how much of these medicines is needed ?							
(q) What shortages related to health and nutrition are there and hence what are the IMMEDIATE MEDICAL & NUTRITION NEEDS of the population due to the floods:							
<u>Item</u>		<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>	
Whitfield powder						0	
Anti eye drop						0	
(r) What are the medium-term ONGOING HEALTH & NUTRITION SECTOR NEEDS due to the floods:							
NA						0	
(s) What are the longer-term HEALTH & NUTRITION SECTOR REHABILITATION NEEDS due to the floods:							

NA			0
----	--	--	---

(t) Any other remarks:

In this upazila there in no any nutrition services.

5. WATER & SANITATION:

Type of drinking water sources:	<i>Piped water systems:</i>	<i>Tube-wells:</i>	<i>Dug & other wells:</i>	<i>Surface & rain water systems:</i>	<i>Others:</i>	
(a) How many of these water sources are normally available ?		DPHE 4088				
(b) How many of these sources have been damaged/contaminated ?		8,076				
(c) What damage/contamination has been sustained by these sources ?		Flood water and arsenic				
(d) How many of the damaged/contaminated water sources have been repaired and put back in use?		80				
(e) How many of these water sources are available right now ?		4,070				
(f) How many of the water sources still need to be repaired in the area ?		18				
(g) How many of the water sources still need to be replaced / reinstalled in the area ?		1				
(h) Is there adequate water supply in terms of quantity and quality ?	No.					
(i) What sanitation arrangements are normally available in the area ?	Open, cover and pit sanitation					
(j) How many of these have been damaged and are now unusable ?	6% Information by DPHE and FGD					
(k) How many latrines/sanitation arrangements have already been repaired ?	6,117					
(l) How many latrines/sanitation arrangements still need to be repaired ?	587					
(m) How many latrines/sanitation arrangements need to be completely replaced/installed anew ?	bamboo, slab, fences					
(n) What are the alternative sanitation arrangements in the places without functioning latrines right now	Not every where					
(o) Do women and girls have access to secure sanitation arrangements ?						
(p) What types and amounts of water & sanitation-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:	WPT	Bleaching powder	Fresh water with J.cane		
	Units:					
	Amounts:					
	Items:					
	Units:					
	Amounts:					
(q) What are the IMMEDIATE WAT/SAN NEEDS of the population caused by the floods:						

Item	Quantity	Unit Cost (Tk.)	Total Cost (Tk.)
Hygenic latrines			0
Safe water supply			0
(r) What are the medium-term ONGOING WAT/SAN SECTOR NEEDS due to the floods:			
NA			0
(s) What are the longer-term WAT/SAN REHABILITATION NEEDS due to the floods:			
NA			0
(t) Any other remarks:			
Outside of dam they have not adequate WATSAN.			

6. AGRICULTURE:

(a) What are the main crops in the affected area ?	Paddy	Jute	Wheat	Vegetable			
(b) What acreage of these crops is lost ?	1,013	99	420	494			
(c) What proportion of the total acreage of these crops does this represent ?	59%	55%	0%	38%			
(d) What acreage of seedbeds is lost ?							
(e) What proportion of the total acreage of these seedbeds does this represent ?	0%	0%	0%	0%			
(f) When is the next planting season for these crops (mm/yyyy) ?	Mar/Apr'05	Mar/Apr'05		Sep/Oct'04			
(g) When will these crops normally be ready for harvesting (mm/yyyy) ?	Nov'04	July/Aug'04		Nov/ Dec'04			
(h) Are seeds for these crops available in the local area at an affordable price ?	Yes	Yes	Yes	Yes			
(i) Do families currently have seeds for these crops, or money to purchase them ?	About 50% have enough funds, the rest do not.						
(j) If no – what varieties of seeds do families require ?	Paddy	vegetable	Jute	others			
(k) In what quantities does a family in the upazila need the seeds per bigha land per crop ?	10kg	0.5kg	1kg	1kg			
(l) What other agricultural needs are there – irrigation, fertilizer, labour etc. and how are the farmers planning to obtain them ?							
(m) What types of livestock are lost ?	Cow	Duck/Hen	Goat/Sheep	others			
(n) What numbers of this stock are lost ?	31	253	12				
(o) How many more have been sold ?	Information						
(p) What proportion of the total number of this of livestock does this represent ?	34%	33%	33%	0%			
(q) Is adequate fodder available for the remaining livestock ?	Not in local market						
(r) Will a re-stocking of healthy animals from another region be possible ?							
(s) If so, when should the re-stocking be planned for (mm/yyyy)							
(t) What is the supply situation for livestock vaccines and medicines ?							
(u) How will affected families survive until the next harvest ?	Printik farmer need help by any how						
(v) What types and amounts of agriculture-related relief assistance has already been / is now being provided by the various actors, such as	Items:	Onion	Wheat	Mustard	Boro paddy		
	Units:	5 kg/Biga	20 kg/bigga	0.5 kg/bigga	10 nkg/bigga		
	Amounts:						
	Items:						

GoB, INGOs, NGOs, etc ?	Units:					
	Amounts:					
(w) What are the IMMEDIATE AGRICULTURE NEEDS of the population caused by the floods:						
<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>			
Onion	5 kg/Biga		-			
Boro Paddy	20 kg/bigga		-			
Vegetable	1 kg/bigga		-			
Fertilizer			0			
(x) What are the medium-term ONGOING AGRICULTURE SECTOR NEEDS due to the floods:						
NA			0			
(y) What are the longer-term AGRICULTURE REHABILITATION NEEDS due to the floods:						
NA			0			
(z) Any other remarks:						
None						

7. FOOD:

(a) What are the preferred staple foods in the area ?	Rice, Wheat, Pulse, Potato					
(b) What stocks are normally available in the Local Storage Depot (LSD) ? (Specify item and amount)	Item:	Item:	Item:	Item:	Item:	
	Rice	Wheat				
(c) What stocks are held there right now ?						
(d) How many people benefitted from Public Food Distributions in the period before the flood ?	Gratuitous Relief:	VGF:	VGD:	Rural Maint. Programme:	NGOs:	
	37,200		540 family			
(e) How many are benefitting from such targetted food distributions now ?						
(f) Have vulnerable families/groups access to adequate amounts of food right now ?						
(g) Is there any change in commodity prices after the floods ?	Yes, little bit					
(h) What is the price of coarse rice now (in Sep) ?	BDT 16 kg					
(i) What was the price of coarse rice in June ?	BDT 14 kg					
(j) What amount of food do affected families have available per week ?	Rice (in Kg.)	Pulse (in Kg.)	Oil (in Kg.)	Salt (in Kg.)	HEB (in Packets)	
	5	1	1	250gm		
(k) From which sources are most people buying/getting their food ? e.g. Neighbours, friends, relatives, store purchase, borrowed money/food, Govt GR,VGF, VGD, RMP, NGOs, others	Most people are getting their food GOB, VGD, NGOs and borrowed money					
(l) Do most families have any food stocks in their homes right now ? If yes, how long will they last ?	No					
(m) Are people able to cook in the affected areas ?	Right now Yes					
(n) Of the affected, how many families are in need of food and for how long will they need assistance ?	Number of Families:			Period (Days):		
	18,500			60		
(p) What types and amounts of food-related relief assistance has already been / is now	Items:	Rice	Pulse	Salt	Oil	ORS
	Units:	15 kg	3 kg	1 kg	1 kg	4 pkt
	Amounts:					

being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:						
	Units:						
	Amounts:						
(q) What are the IMMEDIATE FOOD RELIEF NEEDS of the population due to the floods:							
<u>Item</u>		<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>	
NA						0	
(r) What are the medium-term ONGOING FOOD RELIEF NEEDS due to the floods:							
NA						0	
(s) What are the longer-term FOOD REHABILITATION NEEDS due to the floods:							
NA						0	
(t) Any other remarks:							
None							

8. SHELTER:

(a) How many houses were completely destroyed by the flood ?	46 family houses				
(b) How many houses were badly damaged by the floods ?	11,500				
(c) How many houses were lightly damaged by the floods ?	1,260				
(d) How many families lost their houses due to river erosion ?	6				
(e) How many of the affected families who were displaced are still living in that area ?	no record				
(f) How many houses need to be rebuilt ?	2 family houses				
(g) How many houses need to be repaired ?	11,500				
(h) How many of the completely destroyed houses belonged to female-headed households ?	no record				
(i) How many of the partially destroyed houses belonged to female-headed households ?	no record				
(j) Describe the typical house design in this area:	square or dou chala tin shaded house				
(k) What are the usual house building materials used in this area ?	Brick, bamboo, fence, wood, iron flat bar, RCC pillar				
(l) Are these materials readily available in the markets ?	Yes				
(m) What is the cost of these building materials ?	<i>Item:</i> <i>fence</i>	<i>Item:</i> <i>Bamboo</i>	<i>Item:</i> <i>Wood</i>	<i>Item:</i> <i>RCC pillar</i>	<i>Item:</i>
	Tk. 80 yrds	Tk.25 pcs	800 sqft	Tk. 600 pcs	
(n) What would be the cost of building a minimum standard rural house for that upazila?	Tk. 12,000				
(o) What kind of support do people need for house repair ?	fences, bamboo, wood, pillar				
(p) Describe effective practices for flood mitigation in this part of the country:	adequate food reserve WPT, ORS, emergency medicine and water transportation				
(p) What types and amounts of shelter-related relief assistance	Items:				
	Units:				

has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Amounts:					
	Items:					
	Units:					
	Amounts:					

(r) What are the IMMEDIATE SHELTER NEEDS of the population:

<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>
RCC pillar		600 BDT	-
Fence		80 BDT/yards	-
Bamboo		250 BDT/pcs	-
Wood		800 BDT/sqft	-

(s) What are the medium-term ONGOING SHELTER NEEDS:

NA			0
----	--	--	---

(t) What are the longer-term SHELTER REHABILITATION NEEDS:

NA			0
----	--	--	---

(u) Any other remarks:

None

9. EDUCATION

Type of school:	<i>Govt primary</i>	<i>Registered non-Govt primary</i>	<i>Community schools</i>	<i>Unregistered primary</i>	<i>NGO schools</i>	<i>Madrassahs</i>	<i>Secondary schools</i>
(a) How many were there before the floods ?	58	8	6	2	38	12	18
(b) How many were used as flood shelters ?							2
(c) How many are still in use as flood shelters ?							
(d) How many need to be completely rebuilt?							
(e) How many need extensive repairs?						1	3
(f) How many need light repairing?							10
(g) How many are not currently in a state to conduct classes ?							
(h) How many is the government planning to repair?						1	12
(i) What types and amounts of education-related relief assistance has already been and is being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:	No assistance provided yet					
	Units:						
	Amounts:						
	Items:						
	Units:						
Amounts:							

(j) What are the IMMEDIATE NEEDS to restart classes in every school and learning centre in the upazila:				
Type of school:	Item	Quantity	Unit Cost (Tk.)	Total Cost (Tk.)
Secondary school	white wash			0
primary school	chone			0
Madrasa	color			0
	brush etc			0
(k) What NON-INFRASTRUCTURE EDUCATION NEEDS (chalk-boards, teaching materials, a globe, maps, charts, supplementary reading materials, games, sports items and, for the children - exercise/copy books, pens, pencils, school bags, etc.) are there, to make up for damage/losses:				
NA				0
(l) What are the INFRASTRUCTURE NEEDS to repair one typical lightly damaged school:				
	Cement			0
	Sand			0
	white wash materials			0
(m) What are the INFRASTRUCTURE NEEDS to repair one typical badly damaged school:				
	Cement			0
	Sand			0
	Brick			0
	white wash materials			0
	Mason			0
	Daily labour			0
(n) Any other remarks:				
None				

10. ECONOMIC RECOVERY & INFRASTRUCTURE

(a) What is the normal pre-monsoon season livelihood of most people in this area:	Many people live and work abroad, daily labour, farmer, shops owner			
(b) What is the normal monsoon season livelihood of most people in this area ?	farmer, shopkeeping			
(c) What are the main wage-employment activities (e.g. farming, cottage industries, shops in this upazila) ?	farming and Rickswa pollar			
(d) Do most households in this area have any savings ?	Many people have			
(e) Have households withdrawn their savings ?	No			
(f) Have households sold or are planning to sell livestock or other assets ?	No			
(g) How is the job market for wage labourers: satisfactory / not so good / very bad ?	Not so good			
(h) What is the daily wage for day-labourers ?	80 taka per day			
(i) Have households sold their labour in advance ?	firming vegetable			
(j) Have household members had to migrate elsewhere in search of work ?				
(k) What other short-term coping mechanisms do households have ?				
(l) Have households taken new loans from micro-credit institutions – how much ?	If yes, #:		If yes, in what range?	

(m) Have households taken new loans from village moneylenders – how much ?	If yes, #:		If yes, in what range?	
(n) What is the most crucial infrastructure in the area that makes the biggest difference to poor people's lives ?				
(o) Is this most crucial infrastructure damaged ?				
(p) What types of works are recommended by the people for Cash-for-Work programmes ?				
(q) How many of these opportunities are there in this area ?				
(r) What measures could be taken to increase resilience to future floods of local households and their livelihood practices ?				
(s) What types and amounts of economic recovery & infrastructure-related relief assistance has already been and is being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:			
	Units:			
	Amounts:			
	Items:			
	Units:			
Amounts:				
(t) What type of SHORT-TERM ECONOMIC RECOVERY SUPPORT do local people consider necessary:				
<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>	
NA				0
(u) What type of LONGER-TERM RECOVERY SUPPORT do local people consider necessary:				
NA				0
(v) Any other remarks:				
None				

11. Are there any other general observations that are important to note?

There is a weaver class. Their weaver's loom is now closed due to materials (threads and color). To their proverty they are not able to purchase from market. Now weaver's need some capital to run machine. They are looking for help.

12. Logistic Considerations:

(a) Is there a usable warehouse in or near the upazila?	Yes					
(b) Who does this warehouse belong to and can it be used to store relief items ?	<i>Govt LSD:</i>		<i>NGO:</i>		<i>Private / others:</i>	
	Available (If yes, #):	1	Available (If yes, #):		Available (If yes, #):	
	Combined Capacity (MT):	250	Combined Capacity (MT):		Combined Capacity (MT):

(i) Aganagor	(r)	(aa)
Total: 12	Total:	Total:

2. Information on the FLOOD:

a) How high was the water level in this upazila during the Flood - 2004?		
High: 9.0 ft	Medium: 8.0 ft	Low: 6.9 ft
b) When did the water level rise above a 'normal' flood level ?	24.07.04	
c) When did the water level fall below a 'normal' flood level ?	12.08.04	
d) Did the floodwater level fall at any stage during this period - if so between which dates?	Not fallen	
e) When was the last time that the floodwater level was as high as this time?	1988	
f) When was the last time that the flood lasted as long as this time?	1998	

3. Information on the Population:

(a) What is the total population of the upazilla ?				
(b) How many people in total are affected ?	773,410			
(c) How many families in total are affected ?	128,900			
(d) How many births have been there during the flood period ?				
(e) Where did these births take place ?				
(f) Was a trained attendant present at the deliveries ?				
(g) How many people have died due to drowning and flood-related diseases and related causes (disaggregated by age and sex) ?	Adult male:	2	Adult female:	1
	Boys:	4	Girls:	3
	Infants:	1	Infants:	
(h) How many people have been injured or fallen sick due to the flooding (disaggregated by age and sex) ?	Adult male:		Adult female:	
	Boys:		Girls:	
	Infants:		Infants:	

(i) How many families had to evacuate their homes and take refuge in other places ?	170,000 persons
(j) Where did these families take refuge ?	58 shelters
(k) Describe the additional vulnerabilities of the population caused by the floods:	
i. No access to safe drinking water	60% of population
ii. No access to sanitation facilities	85% of population
iii. No access to healthcare	20%
iv. No access to family planning services	15%
v. No access to skilled attendants at birth	5%
vi. No ability to cook	30%
vii. No power supply	As usual
viii. No transportation	Road communication fully blocked
ix. Erosion of housing	25 houses
x. Robbery of possessions	Yes, some where
xi. Loss of income	25%
xii. Lack of wage-employment opportunities	50%
xiii. Lack of seed/seedlings	Only 3 hector
xiv. Food insecurity	Many places
xv. Long-term unemployment	No statistics
xvi. Others (please specify)	

4. HEALTH & NUTRITION

(a) What are the diseases normally experienced at this time of year ?	Fiver, Dirroea, Skin diseases
(b) Have any diseases increased because of the floods ? If yes, which diseases ?	Water transmitted diseases
(c) Are there any possibilities of further serious disease outbreaks ?	No
(d) Are there a significant number of sick/ill persons at this time ?	No record

(e) Are the sick persons able to receive the necessary treatment ?		Most of people able to receive necessary treatment.							
(f) Has the flood caused any damage to the government's medical facilities in this area ?									
(g) Has the flood caused any routine health/nutrition services (e.g. immunization, antenatal care, provision of iron-folate/vitamin A supplements) in the area to reduce or stop and, if so, why ?									
(h) If the sick/ill people are not able to receive necessary treatment, what kind of assistance is required in this area ?									
(i) Are there any facilities in place to monitor and/or treat severe malnutrition ?									
(j) Are there any signs (e.g. swollen belly, wasting, night blindness, etc.) of severe malnutrition in the following:		<i>Children under 5 years:</i>		<i>Pregnant & lactating women:</i>		<i>The general population of the area:</i>			
(k) Has there been any change in the number of malnourished since the flood and, if so, how much has it increased ?									
(l) Were there any deaths of severely malnourished children in the area:		<i>Prior to the floods:</i>		<i>During the floods:</i>		<i>Following the floods:</i>			
(m) Are there any specialised feeding needs in the area ?		<i>Clinics & community health centres (If yes, #)</i>		<i>Hospitals (If yes, #)</i>	<i>Intensive care units (If yes, #)</i>	<i>Schools (If yes, #)</i>	<i>Children's homes (If yes, #)</i>	<i>Others (If yes, #)</i>	
(n) What types and amounts of health & nutrition-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?		Items:							
		Units:							
		Amounts:							
		Items:							
		Units:							
		Amounts:							
(o) Are there sufficient quantities of the following basic medicines ?		<i>ORS</i>		<i>WPTs</i>	<i>IVS fluids</i>	<i>Others ?</i>			
(p) If not, how much of these medicines is needed ?									
(q) What shortages related to health and nutrition are there and hence what are the IMMEDIATE MEDICAL & NUTRITION NEEDS of the population due to the floods:									
<u>Item</u>		<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>			
NA						0			
(r) What are the medium-term ONGOING HEALTH & NUTRITION SECTOR NEEDS due to the floods:									
NA						0			
(s) What are the longer-term HEALTH & NUTRITION SECTOR REHABILITATION NEEDS due to the floods:									
NA						0			

(t) Any other remarks:
None

5. WATER & SANITATION:

Type of drinking water sources:	<i>Piped water systems:</i>	<i>Tube-wells:</i>	<i>Dug & other wells:</i>	<i>Surface & rain water systems:</i>	<i>Others:</i>		
(a) How many of these water sources are normally available ?		DPHE 8994					
(b) How many of these sources have been damaged/contaminated ?		4,182					
(c) What damage/contamination has been sustained by these sources ?							
(d) How many of the damaged/contaminated water sources have been repaired and put back in use?		2,985					
(e) How many of these water sources are available right now ?		7,797					
(f) How many of the water sources still need to be repaired in the area ?		1,197					
(g) How many of the water sources still need to be replaced / reinstalled in the area ?							
(h) Is there adequate water supply in terms of quantity and quality ?	No adequate quality water supply						
(i) What sanitation arrangements are normally available in the area ?	Ring slab, open, pit						
(j) How many of these have been damaged and are now unusable ?							
(k) How many latrines/sanitation arrangements have already been repaired ?							
(l) How many latrines/sanitation arrangements still need to be repaired ?							
(m) How many latrines/sanitation arrangements need to be completely replaced/installed anew ?							
(n) What are the alternative sanitation arrangements in the places without functioning latrines right now							
(o) Do women and girls have access to secure sanitation arrangements ?	140,206 women are using hygienic sanitation.						
(p) What types and amounts of water & sanitation-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:	WPT	WPL	Water & Jericane	Bleaching Powder		
	Units:						
	Amounts:						
	Items:						
	Units:						
	Amounts:						
(q) What are the IMMEDIATE WAT/SAN NEEDS of the population caused by the floods:							
<u>Item</u>	<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>		

NA			0
(r) What are the medium-term ONGOING WAT/SAN SECTOR NEEDS due to the floods:			
NA			0

NA				0		
(n) Any other remarks:						
None						

10. ECONOMIC RECOVERY & INFRASTRUCTURE

(a) What is the normal pre-monsoon season livelihood of most people in this area:				
(b) What is the normal monsoon season livelihood of most people in this area ?				
(c) What are the main wage-employment activities (e.g. farming, cottage industries, shops in this upazila) ?				
(d) Do most households in this area have any savings ?				
(e) Have households withdrawn their savings ?				
(f) Have households sold or are planning to sell livestock or other assets ?				
(g) How is the job market for wage labourers: satisfactory / not so good / very bad ?				
(h) What is the daily wage for day-labourers ?				
(i) Have households sold their labour in advance ?				
(j) Have household members had to migrate elsewhere in search of work ?				
(k) What other short-term coping mechanisms do households have ?				
(l) Have households taken new loans from micro-credit institutions – how much ?	If yes, #:		If yes, in what range?	
(m) Have households taken new loans from village moneylenders – how much ?	If yes, #:		If yes, in what range?	

(n) What is the most crucial infrastructure in the area that makes the biggest difference to poor people's lives ?							
(o) Is this most crucial infrastructure damaged ?							
(p) What types of works are recommended by the people for Cash-for-Work programmes ?							
(q) How many of these opportunities are there in this area ?							
(r) What measures could be taken to increase resilience to future floods of local households and their livelihood practices ?							
(s) What types and amounts of economic recovery & infrastructure-related relief assistance has already been and is being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:						
	Units:						
	Amounts:						
	Items:						
	Units:						
	Amounts:						
(t) What type of SHORT-TERM ECONOMIC RECOVERY SUPPORT do local people consider necessary:							
<u>Item</u>		<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>	
NA						0	
(u) What type of LONGER-TERM RECOVERY SUPPORT do local people consider necessary:							
NA						0	
(v) Any other remarks:							
None							

11. Are there any other general observations that are important to note?
None

12. Logistic Considerations:

(a) Is there a usable warehouse in or near the upazila?							
(b) Who does this warehouse belong to and can it be used to store relief items ?	<i>Govt LSD:</i>		<i>NGO:</i>		<i>Private / others:</i>		
	Available (If yes, #):		Available (If yes, #):		Available (If yes, #):		
	Combined Capacity (MT):		Combined Capacity (MT):		Combined Capacity (MT):

2. Information on the FLOOD:

a) How high was the water level in this upazila during the Flood - 2004?		
High: <u>7.5'</u>	Medium: <u>7.0'</u>	Low: <u>6.5'</u>
b) When did the water level rise above a 'normal' flood level ?	24.07.04	
c) When did the water level fall below a 'normal' flood level ?	09.08.04	
d) Did the floodwater level fall at any stage during this period - if so between which dates?	Not fallen	
e) When was the last time that the floodwater level was as high as this time?	1988	
f) When was the last time that the flood lasted as long as this time?	1998	

3. Information on the Population:

(a) What is the total population of the upazilla ?	2,93,740		
(b) How many people in total are affected ?	1,70,000		
(c) How many families in total are affected ?	35,800		
(d) How many births have been there during the flood period ?	Record not maintained		
(e) Where did these births take place ?	N/A		
(f) Was a trained attendant present at the deliveries ?	N/A		
(g) How many people have died due to drowning and flood-related diseases and related causes (disaggregated by age and sex) ?	Adult male:		Adult female:
	Boys:	3	Girls:
	Infants:		Infants:
(h) How many people have been injured or fallen sick due to the flooding (disaggregated by age and sex) ?	Adult male:		Adult female:
	Boys:		Girls:
	Infants:		Infants:

(i) How many families had to evacuate their homes and take refuge in other places ?	794 Persons
(j) Where did these families take refuge ?	Shelter(Primary School, Madrasa)
(k) Describe the additional vulnerabilities of the population caused by the floods:	
i. No access to safe drinking water	2% Information by DPHE and FGD
ii. No access to sanitation facilities	50% Information by CS Office
iii. No access to healthcare	25% Information by CS Office
iv. No access to family planning services	1% Information by CS Office
v. No access to skilled attendants at birth	1% Information by CS Office
vi. No ability to cook	15% Information by DRRO Office
vii. No power supply	10% Information by LGD
viii. No transportation	Road communication blocked, alternative transport were running
ix. Erosion of housing	2%
x. Robbery of possessions	No record findings
xi. Loss of income	35% Information by DRRO Office
xii. Lack of wage-employment opportunities	45% Information by DRRO Office
xiii. Lack of seed/seedlings	80% Information by DRRO Office
xiv. Food insecurity	Sufficient food
xv. Long-term unemployment	5% Information by DRRO Office
xvi. Others (please specify)	Fish culture/Fish firm badly damage

4. HEALTH & NUTRITION

(a) What are the diseases normally experienced at this time of year ?	fiver and water diseases
(b) Have any diseases increased because of the floods ? If yes, which diseases ?	Skin diseases, diarrroea, fiver
(c) Are there any possibilities of further serious disease outbreaks ?	No, because govt. has taken sufficient measures
(d) Are there a significant number of sick/ill persons at this time ?	No findings

(e) Are the sick persons able to receive the necessary treatment ?		Yes, they able					
(f) Has the flood caused any damage to the government's medical facilities in this area ?		No					
(g) Has the flood caused any routine health/nutrition services (e.g. immunization, antenatal care, provision of iron-folate/vitamin A supplements) in the area to reduce or stop and, if so, why ?		2 days stop routine health/nutrition service because flood water was overflow.					
(h) If the sick/ill people are not able to receive necessary treatment, what kind of assistance is required in this area ?		Sick people can receive necessary treatment.					
(i) Are there any facilities in place to monitor and/or treat severe malnutrition ?		Yes,					
(j) Are there any signs (e.g. swollen belly, wasting, night blindness, etc.) of severe malnutrition in the following:	<i>Children under 5 years:</i>		<i>Pregnant & lactating women:</i>		<i>The general population of the area:</i>		
	Not found		Not found		Not found		
(k) Has there been any change in the number of malnourished since the flood and, if so, how much has it increased ?	x		x		x		
(l) Were there any deaths of severely malnourished children in the area:	<i>Prior to the floods:</i>		<i>During the floods:</i>		<i>Following the floods:</i>		
	x		x		x		
(m) Are there any specialised feeding needs in the area ?	<i>Clinics & community health centres (If yes, #)</i>		<i>Hospitals (If yes, #)</i>	<i>Intensive care units (If yes, #)</i>	<i>Schools (If yes, #)</i>	<i>Children's homes (If yes, #)</i>	<i>Others (If yes, #)</i>
	N/A		N/A	N/A	N/A	N/A	N/A
(n) What types and amounts of health & nutrition-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:	ORS	WPT	WPL	Colera ORS	Bliching Powder	
	Units:						
	Amounts:						
	Items:						
	Amounts:						
(o) Are there sufficient quantities of the following basic medicines ?	<i>ORS</i>		<i>WPTs</i>	<i>IVS fluids</i>	<i>Others ?</i>		
	Yes		No	Yes			
(p) If not, how much of these medicines is needed ?							
(q) What shortages related to health and nutrition are there and hence what are the IMMEDIATE MEDICAL & NUTRITION NEEDS of the population due to the floods:							
<u>Item</u>		<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>	
NA						0	
(r) What are the medium-term ONGOING HEALTH & NUTRITION SECTOR NEEDS due to the floods:							
NA						0	
(s) What are the longer-term HEALTH & NUTRITION SECTOR REHABILITATION NEEDS due to the floods:							
NA						0	

(t) Any other remarks:
None

5. WATER & SANITATION:

Type of drinking water sources:	<i>Piped water systems:</i>	<i>Tube-wells:</i>	<i>Dug & other wells:</i>	<i>Surface & rain water systems:</i>	<i>Others:</i>	
(a) How many of these water sources are normally available ?		35,000				
(b) How many of these sources have been damaged/contaminated ?		28,000				
(c) What damage/contamination has been sustained by these sources ?		Arsenic Cotamination				
(d) How many of the damaged/contaminated water sources have been repaired and put back in use?		595				
(e) How many of these water sources are available right now ?		30,000				
(f) How many of the water sources still need to be repaired in the area ?		515				
(g) How many of the water sources still need to be replaced / reinstalled in the area ?		40				
(h) Is there adequate water supply in terms of quantity and quality ?	No adequate quality water supply but, adequate quantity water supply is there.					
(i) What sanitation arrangements are normally available in the area ?	Open, covered and Pit sanitation					
(j) How many of these have been damaged and are now unusable ?	5% Information by DPHE					
(k) How many latrines/sanitation arrangements have already been repaired ?	13,000					
(l) How many latrines/sanitation arrangements still need to be repaired ?	2,000					
(m) How many latrines/sanitation arrangements need to be completely replaced/installed anew ?	1,000					
(n) What are the alternative sanitation arrangements in the places without functioning latrines right now	Ring, Slab, Fence					
(o) Do women and girls have access to secure sanitation arrangements ?	Yes					
(p) What types and amounts of water & sanitation-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:	WPT	Fresh Water			
	Units:					
	Amounts:					
	Items:					
	Units:					
	Amounts:					
(q) What are the IMMEDIATE WAT/SAN NEEDS of the population caused by the floods:						

<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>
Deep tube wells	atleast 10 per union		-
Arsenic test kids with skill man power			0
(r) What are the medium-term ONGOING WAT/SAN SECTOR NEEDS due to the floods:			
NA			0
(s) What are the longer-term WAT/SAN REHABILITATION NEEDS due to the floods:			
NA			0
(t) Any other remarks:			
80% Tube wells are contaminated by arsenic.			

6. AGRICULTURE:

(a) What are the main crops in the affected area ?	Paddy	Jute	Vegetable	Others
(b) What acreage of these crops is lost ?	8,685	3,202	3,632	
(c) What proportion of the total acreage of these crops does this represent ?	70%	0%	38%	33%
(d) What acreage of seedbeds is lost ?	5			
(e) What proportion of the total acreage of these seedbeds does this represent ?	0%	0%	0%	0%
(f) When is the next planting season for these crops (mm/yyyy) ?	Mar/Apr'05	mar/apr'05	Sep/Oct'04	
(g) When will these crops normally be ready for harvesting (mm/yyyy) ?	Nov'04	Jul/Aug'04	Nov/Dec'04	
(h) Are seeds for these crops available in the local area at an affordable price ?	Paddy	Jute	vegetable	
(i) Do families currently have seeds for these crops, or money to purchase them ?	Some have the necessary funds, some do not.			
(j) If no – what varieties of seeds do families require ?	Onion	Paddy	Pulse	Vegetable
(k) In what quantities does a family in the upazila need the seeds per bigha land per crop ?	0.5 kg	5 kg	1 kg	0.5 kg
(l) What other agricultural needs are there – irrigation, fertilizer, labour etc. and how are the farmers planning to obtain them ?				
(m) What types of livestock are lost ?	Cow	Chicken	Goat/Sheep	Others
(n) What numbers of this stock are lost ?	23	815	14	
(o) How many more have been sold ?	No info available			
(p) What proportion of the total number of this of livestock does this represent ?	51%	19%	30%	0%
(q) Is adequate fodder available for the remaining livestock ?	No.			
(r) Will a re-stocking of healthy animals from another region be possible ?				
(s) If so, when should the re-stocking be planned for (mm/yyyy)				
(t) What is the supply situation for livestock vaccines and medicines ?				
(u) How will affected families survive until the next harvest ?				
(v) What types and amounts of agriculture-related relief assistance has already been / is now	Items:	Boro paddy /family	vegetable/ family

(o) What kind of support do people need for house repair ?	Fence, bamboo, wood, pillar				

(p) Describe effective practices for flood mitigation in this part of the country:			adequate food reserve, safe water, WPT, ORS, emergency medicine reservation and water transportation.				
(p) What types and amounts of shelter-related relief assistance has already been / is now being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:						
	Units:						
	Amounts:						
	Items:						
	Units:						
	Amounts:						
(r) What are the IMMEDIATE SHELTER NEEDS of the population:							
<u>Item</u>		<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>	
RCC pillar						0	
Bamboo						0	
Fences						0	
(s) What are the medium-term ONGOING SHELTER NEEDS:							
NA						0	
(t) What are the longer-term SHELTER REHABILITATION NEEDS:							
NA						0	
(u) Any other remarks:							
None							

9. EDUCATION

Type of school:	<i>Govt primary</i>	<i>Registered non-Govt primary</i>	<i>Community schools</i>	<i>Unregistered primary</i>	<i>NGO schools</i>	<i>Madrassahs</i>	<i>Secondary schools</i>
(a) How many were there before the floods ?							
(b) How many were used as flood shelters ?	5	2				2	3
(c) How many are still in use as flood shelters ?							
(d) How many need to be completely rebuilt?							
(e) How many need extensive repairs?							
(f) How many need light repairing?	5	2				6	20
(g) How many are not currently in a state to conduct classes ?							
(h) How many is the government planning to repair?	5	2				6	20
(i) What types and amounts of education-related relief assistance	Items:						
	Units:						

has already been and is being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Amounts:	50,000				
	Items:					
	Units:					
	Amounts:					
(j) What are the IMMEDIATE NEEDS to restart classes in every school and learning centre in the upazila:						
<u>Type of school:</u>	<u>Item</u>	<u>Quantity</u>	<u>Unit Cost (Tk.)</u>	<u>Total Cost (Tk.)</u>		
NA				0		
(k) What NON-INFRASTRUCTURE EDUCATION NEEDS (chalk-boards, teaching materials, a globe, maps, charts, supplementary reading materials, games, sports items and, for the children - exercise/copy books, pens, pencils, school bags, etc.) are there, to make up for damage/losses:						
NA				0		
(l) What are the INFRASTRUCTURE NEEDS to repair one typical lightly damaged school:						
NA				0		
(m) What are the INFRASTRUCTURE NEEDS to repair one typical badly damaged school:						
NA				0		
(n) Any other remarks:						
None						

10. ECONOMIC RECOVERY & INFRASTRUCTURE

(a) What is the normal pre-monsoon season livelihood of most people in this area:						
(b) What is the normal monsoon season livelihood of most people in this area ?	farmer and day labour					
(c) What are the main wage-employment activities (e.g. farming, cottage industries, shops in this upazila) ?	farming and shops in upazila					
(d) Do most households in this area have any savings ?	some have savings					
(e) Have households withdrawn their savings ?	Few					
(f) Have households sold or are planning to sell livestock or other assets ?						
(g) How is the job market for wage labourers: satisfactory / not so good / very bad ?	Not so good					
(h) What is the daily wage for day-labourers ?	70 taka per day					
(i) Have households sold their labour in advance ?						
(j) Have household members had to migrate elsewhere in search of work ?						
(k) What other short-term coping mechanisms do households have ?						
(l) Have households taken new loans from micro-credit institutions – how much ?	If yes, #:		If yes, in what range?			
(m) Have households taken new loans from village moneylenders – how much ?	If yes, #:		If yes, in what range?			
(n) What is the most crucial infrastructure in the area that makes the biggest difference to poor people's lives ?						

(o) Is this most crucial infrastructure damaged ?							
(p) What types of works are recommended by the people for Cash-for-Work programmes ?							
(q) How many of these opportunities are there in this area ?							
(r) What measures could be taken to increase resilience to future floods of local households and their livelihood practices ?							
(s) What types and amounts of economic recovery & infrastructure-related relief assistance has already been and is being provided by the various actors, such as GoB, INGOs, NGOs, etc. ?	Items:						
	Units:						
	Amounts:						
	Items:						
	Units:						
	Amounts:						
(t) What type of SHORT-TERM ECONOMIC RECOVERY SUPPORT do local people consider necessary:							
<u>Item</u>		<u>Quantity</u>		<u>Unit Cost (Tk.)</u>		<u>Total Cost (Tk.)</u>	
NA						0	
(u) What type of LONGER-TERM RECOVERY SUPPORT do local people consider necessary:							
NA						0	
(v) Any other remarks:							
None							

11. Are there any other general observations that are important to note?

Fish culture and fishery farm are badly damaged. Most of them are need to be repair. Some fo them have capacity to repair but, printik fish farmar has not that capacity. They will go for borrowed money from bank or locally to restart the fishery. If they get help from others they will servive.

12. Logistic Considerations:

(a) Is there a usable warehouse in or near the upazila?							
(b) Who does this warehouse belong to and can it be used to store relief items ?	<i>Govt LSD:</i>		<i>NGO:</i>		<i>Private / others:</i>		
	Available (If yes, #):	1	Available (If yes, #):	1	Available (If yes, #):	2	
	Combined Capacity (MT):	1000	Combined Capacity (MT):	250	Combined Capacity (MT):	1000
